Various clients – Software Developer Consultant
Worldwide

2014-Current

Sundial Capital Research – Fullstack Developer Consultant
Blaine, MN, & Worldwide

2015-2016

Modernized infrastructure to lower costs and improve product quality
Implemented and delivered high-value features to encourage growth.
“Andy is awesome. I’d hire him in a heartbeat again. His work is the best I’ve seen. If you need a developer, hire him.”
– Dr. Eric Brown, CIO

Gojimo – Fullstack Developer Consultant
London, UK, & Worldwide

2014-2015

“Andy was the best freelancer we’ve ever worked with [remotely ...]. Andy was fully integrated with our full time team and worked excellently remotely. He communicated extremely well and was very responsive at all times. In addition, he used his initiative to make highly beneficial changes to our platform for which we are forever grateful.”
– George Burgess, CEO

Phpbb – Google Summer Of Code Intern
Worldwide

Summer 2013

Refactored critical modules in a legacy codebase
“I think you are doing a pretty good job.”
– Andreas Fischer, Mentor, PhpBB Core Developer

Intel Corporation – Validation Technician Intern
Hillsboro, OR

Summer 2010

Delivered mission-critical tests for software and hardware
“I did not expect an intern this competent.”
– Mike Cunningham, Supervising manager, Senior Team Lead

Bluetech LLC – Software Developer Intern
Portland, OR

Summer 2008

Developed production websites in a growing software business
Operated with others in an open Agile work environment
